Industry News

Dear [[First Name]],

Welcome to the first edition of **NUFORM News** by [NUFORM Building Technologies Inc.](#) NUFORM is an innovative, quality-driven building technologies company.

Through our newsletter we hope to provide you with regular updates on our industry leading products, [CONFORM™](#), [RELINE™](#) and [RENU™](#), ideal for your building needs.

[CONFORM™](#), our patented concrete wall forming system is revolutionizing the building industry and making it easy for all businesses, large and small, to build solid, cost-efficient structures. Our [RELINE™](#) and [RENU™](#) products have been used to line and refinish the interior of thousands of agricultural, vehicle wash and commercial facilities across North America.

## New Product - Multi-Use Trim

NUFORM Building Technologies Inc. proudly introduces our new Multi-Use Trim.

This new Multi-use trim is made of the same high quality, durable PVC you've come to expect from NUFORM's full line of products and can be used as a Crown Moulding and Baseboard.

## Features & Benefits:

- Rigid PVC Extrusion-75mm(3") high X 25mm(1") deep
  - Standard 16' stock lengths (white)
  - Perfect compliment to [CONFORM™](#) walls [RELINE™](#), [RENU™](#) ceilings
  - Ideal for Agricultural & Vehicle wash applications
  - Removable cap to easily install/access electrical wiring
  - Resistant to mold & mildew
  - Will not chip, stain or rot
  - Easy to clean
  - Does not require painting
- 

## Featured Project

**Project Name:** Captain's Car Wash

**Project Location:** Mayflower, Arkansas

**Project Description:** 2 Bay Self Serve and 1 Express Roll Over Automatic Bay

**Owner:** Jascha Tribett

This project features our CF6 & CF4 CONFORM™ products. The Rollover bay was constructed with our CF6 wall form with our CF4 wall form used to divide the self serve bays and utilized to create the vacuum island stands and coin boxes.

*"I wanted to be up and running as quick as I could and the CONFORM™ products offered me that opportunity with their fast track construction process" said Owner Jascha Tribett. Jascha has been selling CONFORM™ products for several years now and when it came time to build a new wash of his own, his choice was clear. He chose CONFORM™ over other building products for its cleanliness, durability and easy of construction. "The CONFORM™ walls were delivered to site, erected and filled with concrete creating a finished wall. That was it! There was no added labour or expense to have it painted or adding FRP" added Jascha.*

This is not Jascha's first car wash. His other car wash-which he purchased-is also in Arkansas and is built with brick covered with FRP. He noted that *"My life cycle and maintenance costs are much lower with my CONFORM™ built wash"* Security was another reason he chose the CONFORM™ wall citing an attempt by a thief to break through a block wall of his other wash to get to the equipment room. *"There's no way anyone would even try to break through the 6" of reinforced concrete in my new wash. "It was built tough and I am sure it will last forever" said Jascha.*

## Nuform Tech Tip

When installing our **RELINE™** panel on a long stretch of wall, install an H-Trim vertically every 15-20 panels. It will simplify replacing a panel if one ever gets damaged.

Contact your NUFORM Sales Representative for more information or visit the [Technical](#) page on our website.

## Industry News - Intelligent Plastics

### CPIA's Intelligent Plastics Campaign

Check out CPIA's recently launched website – [www.intelligentplastics.ca](http://www.intelligentplastics.ca) – which showcases the many benefits of plastics.

It is part of an overall campaign designed to educate government, the public, media and others about the critical role our products play in modern society. The campaign has already reached millions of people with its positive messages. So have a look. It will make you feel good again about plastics.

### The Canadian Plastics Industry Association

The CPIA has re-branded itself to reflect its renewed mission – helping members grow their

business by fostering a more positive public view of the industry and its products.

If you'd like to support this effort through membership, contact the CPIA's CEO and President, Mark Badger, at [mbadger@cpi.ca](mailto:mbadger@cpi.ca) or 905-678-7748 x 229.

On behalf of everyone at NUFORM Building Technologies, we wish you all the best in the New Year!

Every NUFORM News newsletter will feature a project that utilizes one of our products. If you have a project you would like featured in an upcoming NUFORM News newsletter please forward your pictures or email us at [info@nuformdirect.com](mailto:info@nuformdirect.com). We'd love to see your project!
