

Durable, Cost-Effective Paneling System for Retrofit & New Construction

Interlocking fastening system for quick and easy installation

Durable, smooth surface for minimal maintenance

Slotted fastener leg to accommodate expansion and contraction

Concealed fasteners for a clean finish

Innovative, lightweight panels that fasten directly to an existing wall or truss ceiling

Ideal for All Vehicle Wash Applications

Whether you choose to renovate an existing facility or start a new project, RELINE is the ideal, **cost-effective** paneling solution for all your walls and ceiling.

Features

- › Quick and easy installation; no gluing required
- › Panels fasten directly to an existing wall or truss ceiling
- › Will not warp, rust or corrode and never needs to be painted
- › Durable finished surface brightens the interior of the building
- › Meets Class A interior finish requirements
- › Standard and custom lengths available
- › Trims and accessories available
- › Fast delivery times

When used as a ceiling panel, **RELINE** is the perfect complement to **CONFORM**, our concrete wall forming system for new construction. Ask us about this great innovation!

Try the **REVIVE** Advantage*

Eco-friendly cleaner formulated for all **NUFORM** polymer panels

* For industrial use only. Available in cases of 4 bottles of 1 gallon (3.78 L).

Cost-Effective Solution for Automatic Bays & Tunnels

Add Color Using Vinyl Graphics

The Perfect Solution for All Ceiling Applications
