

SAFE ROOMS

BY  **NUFORM**[®]

Permanent Concrete Protection For Homes and Communities

Nuform Safe Rooms are permanent, reinforced concrete structures designed to protect people during extreme events – without the cost, complexity, or limitations of traditional shelter construction.

Nuform Building Technologies brings decades of experience in stay-in-place concrete forming systems to the growing demand for safe rooms in residential and community settings. Our Safe Rooms are built using the patented **CONFORM[®] forming system**, which creates monolithic reinforced concrete walls while remaining in place as a durable, maintenance-free finish.

In House Shelter

Community Shelter

Unlike block or steel panel shelters, NUFORM Safe Rooms combine **true concrete strength with modular construction efficiency**. Panels assemble quickly on site, reinforcement and concrete is installed per engineering requirements. There's no stripping of forms, no secondary wall finishes, and no corrosion or deterioration over time.

FEATURES & BENEFITS

Quick to Install

Build smarter. Build cleaner. Build with CONFORM[®]

NON- INSULATED WALL

CF8
200 mm - 8"

CF6
150 mm - 6"

Also available in:

CF8i
200 mm - 8" insulated

CF4
100 mm - 4"

CF2
64 mm - 2.5"

These safe rooms are typically constructed **above grade**, making them ideal for new builds, retrofits, and community installations where excavation, groundwater, or accessibility are concerns. They can be seamlessly integrated into homes as everyday spaces or built as standalone shelters behind schools, churches, and municipal facilities.

The result is a **long-life, low-maintenance safety solution** that protects occupants, reduces construction risk, and delivers lasting value for owners and communities.

FEATURES

- Reinforced Concrete core
- Impact Resistant
- Pre-Finished permanent PVC forming panels
- Custom sizing and layouts
- Compatible with Storm Rated Doors

BENEFITS

- ✓ Life Safety Protection
- ✓ Quick & Easy to Build
- ✓ Reduced Labour and Trade Coordination
- ✓ Long Term Durability
- ✓ Peace of Mind for Occupants

You build it once – and it's there when people need it most.
