

LOW MAINTENANCE
LONG-TERM PERFORMANCE
EASY TO INSTALL
COST EFFECTIVE

ABOUT NUFORM

NUFORM® specializes in a line of revolutionary building systems. A quality-driven company, we focus on improving construction efficiency while maintaining cost-effectiveness. Our cutting-edge products such as CONFORM®, RELINE® and RENU® wall forming systems are the result of continuous innovation, research and development. We've been serving the residential, commercial, industrial and renovation construction industry across North America and Internationally since 1992.

Specially designed to stand up to a vehicle wash building's unique challenges, Nuform Building Technologies revolutionary CONFORM wall forming systems offer an innovative, cost-effective building material that is durable and maintenance free.

Vehicle wash areas receive significant daily abuse in self-serve bays and many other areas. This means additional maintenance costs. NUFORM® high performance ceiling paneling systems like RELINE® and RENU® will not only stand the test of time but also offer significant savings during construction as well as throughout their life cycle.

For a building material offering maximum return on investment, our wide range of choices will meet most specific requirements.

STURDY CONFORM® VEHICLE WASH WALL SYSTEMS OFFER THESE ADVANTAGES:

- Superior sound and thermal insulation, helping to keep noise levels low in automatic wash buildings while reducing energy costs.
- Improved overall appearance and lowered maintenance costs in tunnel wash buildings, where the walls systems easily combat common problems like mold and mildew,
- Self-service and automatic buildings retaining their fresh appearance year-after-year, avoiding stain, discoloration, rust or corrosion.
- Ideal for any automotive application and can be engineered to suit many structural conditions including facilities for large vehicles like buses and trucks.

ENERGY EFFICIENCY
MAINTENANCE FREE

THE NUFORM ADVANTAGE

SPECIALLY DESIGNED TO STAND UP TO A VEHICLE WASH BUILDING'S UNIQUE CHALLENGES.

NUFORM WASH BUILDINGS

Engineered to perform specifically in the car wash environment

STANDARD COLOR CHOICES

White, Bright White and Tan

DISCOVER THE NUFORM SAVINGS

- Initial cost
- Constructs quickly
- Requires semi-skilled labor
- Cleaner construction site
- Start earning money sooner

MAINTENANCE SAVINGS 1ST RELOAD

Conventional:

- Peeling paint, mold and mildew, hard to keep clean, major refinishing at reload time.

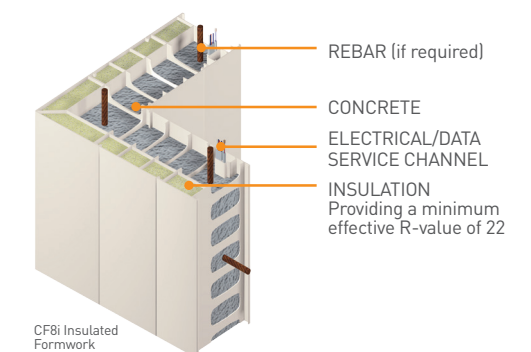

NUFORM 7 YEARS LATER

- Looks new, stays new!
- 10 year warranty on finish
- Easy to keep clean

THE REVOLUTIONARY STAY-IN-PLACE CONCRETE WALL FORMWORK

- Solid Concrete Construction
- Quick On-Site Assembly
- Proven Cost Saving
- Unparalleled Energy Efficiencies
- Easy to Maintain
- Mold/Mildew Resistant
- Available in 4, 6 and 8" wall forms

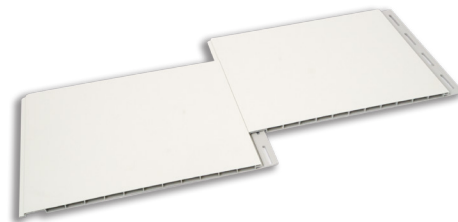

INNOVATIVE, RELIABLE AND DURABLE BUILDING SOLUTIONS FOR GLOBAL CONSTRUCTION MARKETS

DURABLE, COST-EFFECTIVE PANELING SYSTEM FOR RETROFIT & NEW CONSTRUCTION

RELINE 12"

RELINE PRO 18"

Interlocking fastening system for quick and easy installation

Durable, smooth surface for minimal maintenance

Heavy duty slotted fastener leg to accommodate expansion and contraction

Concealed fasteners for a clean finish
